

Shipping in Acumatica has Just Reached Perfection

For Customers with More Robust Requirements

Integration between ProShip and Acumatica

Take Multi-Carrier Shipping to the Next Level

- Choose the components to meet any shipping need – from a single workstation to enterprise level.
- AcuShip Pro Integrates with major and regional carriers, including LTL and International.
- Supports required International shipping documents.

Stay Inside Acumatica to Reduce Overhead

- Reduce shipment processing time
- Reduce shipment tracking time
- Eliminate Shipping Errors

Meet Your Customer's Needs Faster

- Customers can view their order & shipment information instantly.
- Customized labels and or shipment specific instructions, including UCC labels.

Reduce Shipping Costs

- Compare your unique, negotiated rates with carriers.
- Select the best carrier based on criteria such as cost or speed of delivery.
- Negotiate lower rates.

ProShip Continues to expand its global, carrier-compliant shipping footprint to meet the needs of its customers.
